ROSE SPECIALS

Everblooming Roses

THE MOST delightfully fragrant, and the most beautiful yellow varieties are among the everblooming hybrid teas. These demand winter protection in our climate. Many rose lovers are willing to give this extra care to secure these finer qualities. We have therefore arranged with a leading rose-growing firm of the Middle West to fill all our orders for varieties of this class. They may be had in semi-dormant, well-branched, 2-year-old plants, from 4-inch pots, which should bloom well the first year; or in small, well-rooted, growing plants, from 2 1-4-inch pots. These may also give a few blooms the first year. Either size may be safely planted much later than dormant, field-grown plants.

Special introductory postpaid price this year.—Large size, 60c each; small size, 30c each. Any well-known leading variety. Ask for special rose catalogue.

Special Combinations

The American Rose Society's "Favorite 10" bush roses for The United States and Canada, chosen by vote, 426 ballots cast. Contains several choice varieties which cannot be furnished separately at the price quoted. Price, postpaid, large size, \$3; small size, \$3.

"Favorite 10" climbers; chosen as above. Hardy, field-grown plants from our own grounds. Price \$5.
